CS 201: Data Structures and Algorithms

Fall Term 2026 | Instructor: Prof. L. Chen | Credits: 4

Overview

Covers arrays, linked lists, stacks, queues, trees, hash tables, graphs, sorting and complexity analysis. Programming is in Python.

Grading Breakdown

Component	When due	Weight
Lab 1: Arrays and Lists	Week 3	5%
Lab 2: Stacks and Queues	Week 5	5%
Programming Assignment 1	Week 6	10%
Midterm Exam	Week 8	25%
Programming Assignment 2	Week 11	15%
Final Project	Week 13	15%
Final Exam	Week 15	25%

Weekly Topics

Week	Topic	Reading
1	Introduction and complexity	Ch. 1
2	Arrays and linked lists	Ch. 2-3
3	Stacks and queues	Ch. 4
4	Recursion	Ch. 5
5	Trees	Ch. 6
6	Binary search trees	Ch. 7
7	Revision	None
8	Midterm	None
